WEEK IN OXFORD CO.

Norway's Town Manager H. Grant Leonard has resigned "effective immediately." He had served in the position since July 1 of this year. He cited his reasons as personal for leaving the post. His resignation was accepted at a special meeting of the selectmen, at which time Donald Twitchell, chairman of the board, was appointed acting town manager.

Thomas B. Cambio of North Providence, R. I., was reportedly robbed of from $1200-$1500 on Route 26 in Newry while attempting to repair his auto last Saturday morning. According to officials a man came up behind Cambio, pushed "something hard" into his back and demanded his money.

The six public schools in S. A. D. 44 (Mexico) were closed Tuesday of this week for the second time due to an outbreak of scabies. Supt. Fred Allen said 32% of the district's 1450 pupils were absent when classes opened Tuesday morning. Scabes is a highly contagious skin disease caused by a parasite and marked by severe itching. Schools will probably open next Monday.

"CITIZEN" TO BE PUBLISHED ON WEDNESDAY NEXT WEEK

Due to the Thanksgiving Holiday, the "Citizen" will be published on Wednesday next week. Contributors and advertisers are reminded of the earlier deadline and are asked to submit material as early as possible. Late arriving news and advertisements, of necessity, may have to be omitted.

AROUND THE HOUSE

Rub the inner surface of each blade of your scissors with waxed paper every so often. Keeps blades from rusting.

Do your corduroy clothes pick up lint during the wash cycle? Try turning them inside out before you put them into the machine.

A few pieces of activated charcoal in a storage cabinet will absorb all food odors.

Wash empty milk cartons, cut them down, and fill with popcorn to take to the drive-in movie. Reuseable, too!

A good place to keep extra blankets, if you haven't much storage space, is right in the bed, under the mattress pad.

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

The ordinance prohibiting leaving vehicles on the streets all night became effective Nov. 1. Violators could be subjected to a fine plus a towing bill to redeem their vehicles.

An ordinance was passed at the last town meeting preventing leaving snow and ice on the streets and sidewalks within the town. It is anticipated there will be controversy over the enforcement of this as some cannot remove the snow from their driveways without crossing the public ways. There is no provision for exceptions in the ordinance.

There was a meeting of the Planning Board again Wednesday evening. They are in the process of organizing and familiarizing themselves on the problems facing them. At the present they are concentrating on the laws pertaining to subdivisions and the disposal of solid waste. Regular meetings will be held on the third Wednesday of each month. The Selectmen have been appointing new members to replace some who do not wish to continue on the board. — Elwyn N. Dickey

S. A. D. 44 DIRECTORS MEET AT LOCKE MILLS SCHOOL

The S. A. D. 44 directors met Monday evening at the Locke Mills Elementary School. Robert Davis of Newry, chairman of the transportation committee, reported that his committee and the policy committee had met to discuss problems of late bus transportation as well as minor changes in policy. Preliminary board approval was granted a policy change eliminating district-provided transportation for sports practice sessions after 5:30 p. m.

Milton Mills of Woodstock, reported that the buildings and grounds committee had met to establish priority versus dollar figures in regard to repairs and contruction in the upcoming budget.

The buildings and grounds committee supported a request made by Lawrence Arsenault, Telstar Science Dept. chairman, for construction of a shallow pond for biological and ecological purposes to be located at Telstar near an existing brook. The board approved the construction of a pond at a cost not to exceed $150, cost to be borne by Science Dept. funds.

Mr. Mills also reported that the baseball diamond on the athletic field is being prepared for future use.

Budget data was given to board members by Supt. Robert J. Gerardi and the board will start holding budget study meetings, the first being scheduled at Telstar R. H. S. next Monday evening at 7 o'clock.

Richard McCann reported to the board as drug counselor at Telstar R. H. S. He has attended and participated in several drug abuse seminars, and reported an expenditure of about $300 for educational and visual material for elementary and secondary levels, successful conferences with students and parents and introduction of educational programs in kindergarten through grade 12, as well as teacher workshops.

Following discussion the board approved a motion to prepare the emergency generator at Telstar for use. Bids will be sought for the project in the next budget period.

Petition forms were distributed to implement procedures necessary to discuss changes in the member towns' representation on the board of directors.

Members of the board not present Monday evening were: Leon Akers, Kenneth Feener, Andover; Peggy Crosbie, Bethel; Parker Allen, Woodstock.

BASKETBALL GAME TO BENEFIT DOLLARS FOR SCHOLARS, SATURDAY, DEC. 4

On Saturday, Dec. 4 in the Telstar Gymnasium the Gould Academy Faculty will meet the Telstar Faculty in a basketball game for the benefit of Dollars for Scholars. Last year the Gould Faculty bested the Telstar Faculty by one point in a spirited game, and it is expected that this years contest will be equally close and hard fought.

The program begins at 7 p. m. Several interesting possibilities are being explored for the opening game.

A feature of the evening will be the awarding of a Christmas Gift Basket. The prize is a collection of gifts generously donated by area businessmen, including merchandise, services and a most interesting cash component. The prize would be worthwhile at any time of year but in the pre-Christmas season is particularly attractive. Tickets are for sale at Clukey's Pharmacy, Brooks Brothers Hardware, The Bethel Spa, Mills Market in Andover, Paul Head's Store at West Bethel, and Hathaway's at Locke Mills as well as by the directors and friends of Dollars for Scholars.

RESOLUTIONS OF RESPECT

Once more death has entered our ranks and taken from our midst Sister Imogene Kimball, a faithful and loved member and worker of our order, and while we mourn the loss of a loyal member we are rejoiced at her freedom from suffering and her entrance into a higher life where sickness and sorrow are no more.

Therefore be it—

RESOLVED: That Round Mountain Grange extend to the bereaved family and other relatives of our Sister our heartfelt sympathy and we point them to our Heavenly Father for comfort in their hour of trial.

RESOLVED: That these resolutions be placed on our records, that a copy be sent to the family of our Sister, and one sent to the Oxford County Citizen for publication, and our charter be draped in mourning for thirty days.

"Death is a part whereby we pass to joy;
Life is a lake which drowneth all in pain:
Death is so dear, it ceaseth all annoy;
Life is so loud that all it yields is vain:
And as, by life, to bondage man is brought:
E'en so likewise by death is freedom wrought." (unknown)

Christian Science

What makes happiness available? An answer to this question will be examined Sunday at Christian Science church services.

Scriptural selection in the Lesson-Sermon entitled "Soul and Body" will include these words of Christ Jesus: "And thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind, and with all thy strength."

In this supporting commentary from "Science and Health with Key to the Scriptures" by Mary Baker Eddy the word "God" is used as a synonym for God: "God has infinite resources with which to bless mankind, and happiness would be more readily attained and would be more secure in our keeping, if sought in Soul."

THE TRUTH THAT HEALS

A Christian Science radio series

FRANKLIN GRANGE No. 124

Franklin Grange met at their hall in Bryant Pond Monday evening following a pot luck supper.

All officers were present. Guest Grangers from Norway Grange were also present.

The literary program consisted of several songs by all; a skit by Olive and Ellis Davis. All present answered roll call with "What I like best on the Thanksgiving table." Later all told what they had to be thankful for.

Several members visited Sister Stella Ring at Ledgeview Nursing Home on Nov 6. Sister Ring has been a Granger for over 50 years. Nov. 6 was her 93rd birthday.

The next meeting, Dec. 6, will be Scrambled Officers Night. Harris Hathaway will be in the Masters chair.

HUNTERS BEWARE

The Maine Fish and Game Department offers these words of advice to Maine hunters:

Successful hunters — it is a good idea to hang your deer, if you must, where there will be some degree of security, and away from the temptation of passing thieves. There have been some cases this year of deer hanging close to a road unguarded turning up missing.

Also, despite the fact that the weather has turned off quite cool, don't delay in getting the animal cut up. A sudden change in the weather and it could be a venison-less winter.

DELTA ZETA FOUNDS COLONY AT PLYMOUTH

A local sorority at Plymouth (N. H.) State College begins its pledging to become a national sorority. Sigma Delta Chi, the first sorority at Plymouth, was founded Oct. 22, 1963 and has since carried on an active part in many of the college activities. Each year the Miss P. S. C. Pageant is sponsored by the sisters of Sigma Delta Chi. A Halloween party is given annually for the town's children and civic projects are pursued throughout the year.

On Sept. 8, 1971, Linda Graham, a Field Representative from the national sorority in Ohio, performed the pledging ceremony for 30 members. One of these members is Ellen Dombkowski, daughter of Mr. and Mrs. Henry J. Dombkowski of Bethel. Ellen is the Scholarship Chairman and Production Assistant for the Miss P. S. C. Pageant.

Delta Zeta was founded at Miami University, Oxford, Ohio, on Oct. 24, 1902. There are approximately 170 chapters, 305 alumni chapters, and 173 colonade clubs for parents throughout the United States. Delta Zeta's Adventures in Friendship (philanthropies) include aid to Navaho Indians, support of Carville, grants to Gallaudet College, infant testing and local projects. Sigma Delta Chi sorority will never die at Plymouth but will grow and expand as the Kappa Epsilon Chapter of Delta Zeta.

UPTON

— Mrs. Arline Bernier, Corres. —

A supper and party was held in honor of Mr. and Mrs Louis DeBoer Monday night. Present were the Keech family of Errol. The Goodrum family, Fred and Bea Judkins, Bob and Merna Monro and the newlyweds.

Earl Largesse and family took his mother to her home in Springfield after she had visited the family here for a time.

This place has at times been termed, "God-forsaken". It seems unreasonabe to suppose the Creator would leave the spectacular and natural beauty which surrounds us for anything man-made. The hardwoods, bared of leaves, become frost-covered and when the morning sun touches them, they glisten with silvery-white blossoms. On an overcast day, the hills are deep, rich blues and purples and the sun streams through an opening to spotlight a distant hill or valley and make it Queen for a moment. The cove ice slowly reaches out to calm the ripples or perhaps the lake lies glassy smooth, framed all around with white. The rocks and boulders stand out now in their grays and browns with some partly covered with cascading water frozen in action. Instead of this, masses of people, cement, brick, smog, confusion and noise?

Mr. Chase of Andover took time from his work hauling gravel to get me back on my wheels again when I was stranded outside of town. We are fortunate to live among folks like that instead of where they watch a murder in the streets as though it were a movie.

Some are pushing for laws to ban sale and possession of handguns. Seems they didn't think of that in the wild west. Instead, they made tough laws and got tough men to enforce them. This quieted things down and the citizens kept their guns.

The Ladies' Aid is holding a public supper, Saturday, Nov. 20.

LETTER TO THE EDITOR

Dear Editor:

I wish to express my thanks and appreciation to the Bethel Volunteer Fire Department for the prompt and efficient way they responded to the brush fire behind my house on Saturday, Nov. 13.

It gives one a sense of security to know that help is quickly given in such an emergency.

Sincerely,
Robert J. Gerardi

MOTORISTS CAUTIONED TO WATCH FOR ICY BRIDGE DECKS

Motorists in the state are warned by the Maine State Highway Commission to use caution in crossing bridges early in the morning during this fall and early winter.

Bridge decks can be slippery early in the day due to sudden icing caused by the temperature in the area falling below 32 degrees and then rising. The climbing thermometer signals high humidity or moisture which is absorbed by the colder structures.

This situation can result in a skim of frost on the surface of the bridge deck. The scene is then set for trouble.

The dangerous period is between six and nine o'clock in the morning. All motorists should reduce speed, during these early morning hours, when approaching bridges and overpasses.

SUNDAY RIVER

— Mrs. R. M. Fleet, Corres. —

The Tim LaVallee home is coming very fast.

There is also another cellar near Mrs. Mary Morin's for a house to be put up soon.

The Whitmans spent a couple of days at their camp.

Mrs. Bernard Harrington of Bethel was visiting relatives and friends in town Thursday afternoon.

Wallace Brown, our Rawleigh dealer was in town Thursday.

Michael O'Donnell was in town on business Saturday evening.

Dr. Ring of Montpelier, Vt., is in Ketchum, hunting.

Jim Mumford's son, Mike, of Keene, N. H., got a bear Saturday. They were at the Cameron camp at Ketchum over the week end.

Tom Yates was in town Saturday, hunting and all the game he saw was a red fox.

Apparently more bear were taken this week than deer. Of course some of the hunters are so far from their cars that they do not get down here until too dark to see their game anyway.

Mr. and Mrs. Joseph Gmeunder are away and the children have a baby sitter staying with them.

The report is that there are four inches of snow back of White Cap on Slide Mt. So no wonder we are cold. We did get about half an inch Saturday. But most of it has melted.

Monday, our coldest, 10° above, Nov. 15.

OMISSION IN HUNTING-TRAPPING LAWS SUMMARY

Although the Maine Hunting and Trapping Laws Summary distributed by the Maine Department of Inland Fisheries and Game lists the otter trapping season as Nov. 1 to Feb. 29, it should have also noted that the season is closed during the month of December.

There is no open hunting season on otter.

EQUIPMENT GIVEN — A. James Fiske, science teacher at Telstar Regional High School in Bethel, stands along side of the equipment given for use in the school by a major equipment manufacturer. Mr. Fiske and Tim Kersey, another teacher at Telstar, served as consultants to the manufacturer and received this additional equipment for the school's use. Articles shown in the photo include: A Millikan Oil Drop Experiment Apparatus, a current balance, a pair of oscillating turntables, and parabolic trajectory apparatus.

MAGALLOWAY

— Mrs. Bessie Harvey, Corres. —

Mr. and Mrs. Malcolm Harvey went to Rockland, Maine, Monday morning. He is purchasing a larger plow for his new Jeep.

The first "hunters ball" at the Magalloway Town Hall on Friday evening was very well attended.

All three of my tame deer have been shot. The fawn was killed just back of my house before daylight Friday morning. I called the New Hampshire warden's home at Errol but he was away. He had told me to.

I heard last night that Michael Turner killed a large coyote recently.

George Asadorian of Somerville, Mass., with two friends were at Malcolm Harvey's camp last week and went home Sunday. He wounded a bear but lost it.

My sister, Mrs. Gladys Bennett, called me Saturday from Fort Wayne. She said she enjoyed her trip to Nova Scotia very much and went to Cape Mason where our father spent his boyhood.

Mr. and Mrs. John Paglo of Providence, R. I., with James and Christine, spent the week end with her parents, Mr. and Mrs. Mark Harvey.

Russell Bennett of Rumford was at his camps in Wilson's Mills Saturday. Some hunters were leaving and others coming in.

Mr. and Mrs. Burton Abbott of Bethel called on Mrs. Bertha West at Milan Sunday. They went to her trailer at Wilson's Mills but she had gone back to Milan Saturday for the week end.

I discovered Sunday morning that I have four skunks instead of two. There were two young ones eating cat food on the porch and are tame. It is a family.

Monday morning is very cold and frosty and by the way the chickadees are acting I think it is going to snow.

TELSTAR BIOLOGY CLUB —The Biology Club of Telstar Regional High School was formed last year. Since that time they have accomplished many things. Much credit goes to their advisor, Mr. Halle. Last year the club sponsored a rabies clinic in Bethel and held an environmental teach-in at Telstar on Earth Day. Both events were very successful.

During their spare time members of the club joined in and planted pine trees on land situated behind the school. The group also visited Oxford Paper Co.

At the end of the year we went on a combined Outing Club-Biology Club trip to Popham Beach. Everyone enjoyed themselves.

On Nov. 10 of this year the Club visited Rumford Community Hospital where they were guided through the laboratories. Everyone found the visit very interesting and informative.

At the present time, the group is in the process of earning money, part of which will be used for a planned trip to the Boston Museum of Science on Dec. 4.

Plans are being made for a recycling project and a field day for elementary students.

Pictured above are Alice Pearson, secretary; Elton Cole, president, and Mr. Halle, advisor.

TELSTAR R. H. S. NEWS

COUNCIL COMMENTS

Friday morning at 6:00 Merry Robertson, Mike Davis, Betsy Stowell, Harry Morton, Brian Moore, and our advisor, Mr. Fiske, left Telstar on our way to Georges Valley High School in Thomaston for the State Student Council convention. The agenda of the Convention consisted of electing new State officers, regional discussions, swapping ideas and voting on proposed constitutional amendments. During the voting the Telstar delegation banded together with Lewiston, Lisbon and Mt. Desert Island to push through the amendments in their present form.

This year when the basketball season starts you may see something a little different. The cheerleaders have gotten new uniforms! Yes, with a gift of $150 from Student Council the cheerleaders went out and purchased a sizable amount of material which Mrs. Glenn Bangs is now transforming into uniforms. If you're curious as to how they'll look, come to the games when the season starts and find out.—Betsy Stowell

IN MEMORIAM

In Loving Memory of Our Dear Mother,
Mrs. Lura E. Westleigh
who passed away
November 16, 1967

Time speeds on, four years have passed,
Since death its gloom, its shadows cast,
And took from us a shining light.
We miss that light and ever will.
Her vacant place, there's none to fill.
Down here we mourn, but not in vain.
For up in Heaven, we will meet again.
Sadly missed,
Children, Grandchildren
and Great Grandchildren.

GREENWOOD CITY

— Mrs. Colista Morgan, Corres. —

We have noticed a penetrating chill this week perhaps because of the fine weather we have enjoyed this fall. There have been some gray skies, clouds hanging low, and pale sun lacking the necessary heat to melt the skim of ice.

Jack Frost called and left a million diamonds on the grasses rising above the water and ice in the pond. He also painted the windows of my porch. As I looked I could see rugged mountains whose peaks were capped in white and in the valley below, a twinkling water fall with an army of ferns by its side.

Then came the sun and my pictures faded from sight but they'll appear again on another frosty night.

One day I gathered some pine and partridge berries. I had almost forgotten but was soon reminded, November comes across the hills humming her lullabies threaded with bitey winds as I headed into them on my way home.

The clouds above the mountains presented a thin fibrous film moving directly over the summit from north to south. Sometimes they were drawn out in webs like carded wool and at other times they dissolved like magic yet again drifted together forming a cone between two skies; a spotless blue above, a glittering cloud beneath.

At the ledges I noticed the first icicles which had formed where the little rivulets had been plunging headlong over the rocks.

A woodpecker, rattled at an elm branch and the chickadees called from among the firs. A short time ago many other birds paused here to eat the fruit, forest seeds, and hemlock cones; stuffing themselves with food for their journeys that may take them halfway around the world.

Another flock of geese honked their way above with a radar all their own. They were homeward bound. Somewhere their dark shapes will flash across the moon as their powerful wings drive them on. With no chart to guide them in the vast sea of space they respond to age-old instinct and follow an established pattern.

So the days of restless winds with pockets of calms have come and the pond lies somber. Maine begins another of her four seasons; the delicate beauty of winter sunsets and her lands dipped in pearl.

On September 27, 1971, while on vacation in North Haven I picked up one day an orange plastic disk on the shore of Mill River, two miles on the inside waters on the North side and North end of Vinalhaven. It had a number and address on a plastic tag. This I returned with the above information. To my surprise I received a letter from the Fisheries Research Board in New Brunswick, Canada, this week. It stated that the seabed drifter was released April 7, 1968, Bay of Fundy, Gulf of Maine. They also enclosed a reward for your useful information."

The "little drifter" had traveled far and been at sea a long time before it returned home.

BEWARE OF SCABIES

Because of the prevalence of a highly communicable skin disease called SCABIES in neighboring communities involving a substantial number of school children, S. A. D. 44 officials wish to make all parents aware of and on the alert for this disease.

Scabies is a highly contagious disease of the skin which is caused by a mite that burrows itself under the skin and deposits her eggs there in tiny tracts. Transfer of this disease is through direct contact with an infected person, or clothing or bedclothes that have been freshly contaminated by an infected person.

The rash which occurs may take on several forms, but mainly it appears as small vesicles (blister-like elevations), or small raised areas, or the appearance of tiny scratch marks which in some instances can hardly be seen. However, the extreme itching, which occurs especially at night, is a very important symptom. The areas of the body most frequently involved are the fingerwebs, wrists, forearms, waist, abdomen, thighs and buttocks. The rash or lesions rarely appear above the neckline.

Diagnosis can be established by having your physician examine the rash. There is a specific medication for treatment of the disease and this can be obtained only by a prescription from a doctor. It is most important that the complete course of treatment be carried out and that instructions are followed. Proper laundering of underwear, sheets, blankets, pillowcases, towels and washcloths, as well as cleaning and airing of outer clothing is a most important step in treatment of the disease.

Children who are infected, usually more than one member of the family is involved, need to be excluded from school while undergoing treatment. They should not be allowed to be in contact with others while out of school, and they should remain at home until treatment is finished.

Important: Any youngster who is diagnosed as having scabies will have to present a signed statement from the family physician before he or she is allowed back to school.

Remember: Parents should not send children to school who have any of the above signs or symptoms until their doctor has been consulted. If one family member has the disease all members of the family should be examined.

PINEHENGE SCHOOL INITIATES NON-PAYING WORK PROGRAM

Pinehenge School in Waterford, Maine's first "open" school, has designed a non-paying work program for students who wish to learn and be exposed to an occupation that interests them.

The purpose of the program is to utilize the concept of the world as a classroom and not limit learning/teaching to a fixed place. The jobs are non-paying specifically to discourage people from using them as anything but a learning situation.

Once a student decides to work in the local community he works for a trial period of two weeks. At the end of that time, both student and employer (teacher) decide if the job relationship should continue. From that time on it is assumed that the student will continue working until he or the employer wishes to terminate the job experience.

Some of the areas available are: teaching (retarded children), psychology, carpentry, printing, veterinary medicine, law, small engine repair and automotive body repair. Other jobs become available as students request them and the school finds an employer interested in this type of learning process.

NEW HAMPSHIRE TO SUPPLY NATION'S CAPITOL CHRISTMAS TREE

New Hampshire will provide the tree which graces our Nation's Capitol's grounds this year. The tree will be removed from the White Mountain National Forest on Dec. 1 and delivered to Washington, D. C. on Dec. 8.

The forest lands of New Hampshire are beautiful to behold. It's good to have an opportunity to share a portion of that beauty with the rest of the country."

The tree selected is a black spruce, 58 feet tall, and approximately 50 years old. It was located in the Passaconaway Valley not far off the Kancamagus Highway.
